

House Rules – Example

- Respect your own limits and make your own rules (and communicate them to your partner) regarding safe sex. Condoms and condom-compatible lube will be available at the party.
- Everyone participates at their own risk. You are responsible for your self and your own safety; and also for having fun :-)
- Party is focused on sex. SM play is cool and you're encouraged to participate in anything safe, sane, and consensual. Fisting is cool, too. Please confine watersports to the tubs upstairs. Please clean up your own play space.
- Please park on the street and enter quietly. The house is in the back left of a short cul-de-sac and is in a residential neighborhood.
- Sex should be focused in the playroom and in upstairs. There will be 5 slings available. The main floor is for kicking back, watching TV, snacks, etc. There are two bathrooms upstairs, including two showers with hoses. There is a half-bath downstairs.
- There is a small hot tub out back that holds 4 people, maximum. Towels will be available. Please keep noise and talking to a minimum outdoors.
- No drugs on the premises (poppers and pot are OK). Cigarette smoking outdoors only, please.
- Hosts will provide beverages (including beer) and snacks. If there is something particular you would prefer don't hesitate to bring it with you.
- Please no scat or intentional blood play. Loud play should be done upstairs as the playroom is not very soundproof.
- Please communicate your desires to other participants in ways that make sense and are clear. If you're not enjoying yourself, talk to one of the hosts to see what we can do to accommodate you—we can be quite accommodating.
- If you have attitude (ask your best friend), please leave it at home. It will be there waiting for you when you get back....
